

DESCRIPTION

The S-18 & S-22 shredders are designed for optimal ease of maintenance and serviceability. It features easy access to all service points, including interchangeable screens and knives, allowing for quick and efficient replacements or adjustments.

The machine is equipped with a hydraulic tipping hopper, which provides effortless access to the cutting chamber, making the removal of foreign objects both safe and straightforward.

Additionally, the swing-out power pack design enhances accessibility, streamlining routine maintenance and minimizing downtime.

DESIGN & PERFORMANCE

- Rotatable knives for an extendable lifetime
- Rotational speed adjusted to suit material
- Compact and solid design
- Low maintenance efforts and easy installations

APPLICATIONS

- Plastics
- Wood
- RDF
- Cardboard

TECHNICAL DETAILS

Rotor Length	800mm
Rotor Diameter	420mm
Rotor Knives	44x40mm / 22x60mm
Drive Power	18kw / 22kw
Screen Size	10-60mm
Weight	3500kg

For throughput range, contact our sales representatives.

OPTIONS

Hopper	Open top, CE, Integrated Bin Tipper, Hydraulic tip,
Discharge	Vacuum, Auger, Conveyor
Pusher Head:	Plain / Serrated
